

Rain Barrel Sale

2009 Natick Rain Barrel Grant Program

The Town of Natick, in partnership with the **Massachusetts Department of Environmental Protection**, is selling SkyJuice Rain Barrels to residents at the discounted price

Color Choices Too!
Grey, Terra Cotta, Black, Blue

\$65 for the first 50 sold

\$75 for all barrels after first 50 (normally \$150)

SkyJuice Rainbarrel features:

- ◆ 60 gallon recycled food grade barrels
- ◆ Fully screened intake port keeps mosquitoes, insects, and debris out
- ◆ The lid can be removed for easy cleaning and for storing hoses inside the barrel during the winter
- ◆ The brass spigot can be connected to a regular hose or a drip irrigation system
- ◆ The over flow tubing is used to direct water away from the foundation, back into the normal drain, or to join multiple barrels for additional capacity.
- ◆ For more information on the rain barrel, installation, and how to use your barrel, go to www.skyjuice.us

SAVE

Collect rainwater from your roof!
1/4 inch of rain on a 1,000 square foot roof will fill
2 rain barrels!

USE

Use the collected rain water on your gardens and house plants. Your plants will love this naturally soft water!

Become Part of the Solution!

You are becoming part of your local watershed by slowly releasing rainwater from the rain barrels into your gardens. Allowing rain water to soak into the soil decreases stormwater runoff and helps recharge your groundwater.

ORDER YOURS TODAY

To order, fill out order form, make check or money order payable to SkyJuice and drop off at DPW, 75 West Street, by May 4th. Order forms & additional information available at DPW & our website, www.natickrecycle.pbwiki.com
